

Tier 200ACF Series

Outlet/Receptacle AC Surge Filter

The Southern Tier Technologies Outlet/Receptacle AC Surge Filter features a design platform based on a unique multi-stage hybrid design. The coordinated surge and noise mitigation array makes it possible for the Tier 200 AC Filter to attenuate disruptive impulses that would normally go untouched by standard clamping devices. And, its high-energy capability makes this an ideal product to protect sensitive equipment in the harshest environments.

Key Specs:

- **Operating Voltage:** 120 or 240VAC
- **Operating Current:** 5, 10, 20, 30 Amps
- **EMI Attenuation**
- **Surge Capacity:**
5A, 10A, 20A: 50kA/mode, 100kA/Phase
30A: 75kA/Mode, 150kA/Phase
- **Connection:** Series; L5 or L6-20 (Plug/ Receptacle - $\leq 20A$) or L5 or L6-30 (Plug/ Receptacle - 30A) - locking or non-locking

Features:

- **Multi-stage hybrid design;** Inductor, Capacitor, Thermally Protected MOV
- **LED Status Indication:** Monitors all protected modes
- **5 year warranty**

Why Install AC Surge Filters?

High frequency noise and ringing transients generated by lightning, utility switching or an internal operation, can significantly impact your sensitive equipment. These power anomalies can easily disrupt your critical processes, or degrade and damage sensitive microprocessor driven equipment.

Innovative Solutions for Clean, Reliable Power

Tier 200ACF Series

Outlet/Receptacle AC Surge Filter

Low-energy transients and high-frequency noise events are responsible for both disruption and long-term degradation of sensitive microprocessor driven equipment. A complete power protection strategy should include installation of a high frequency noise/surge filter at the input of your most critical equipment as well as at the output of known disruptive devices.

General Technical Specifications

Operating Voltage	120 & 240VAC
Maximum Operating Current	5A, 10A, 20A & 30A
Maximum Continuous Operating Voltage (MCOV)	120 VAC; 125% 240 VAC; 115%
Peak Surge Current Rating	5A, 10A, & 20A: 50 kA/Mode, 100 kA/Phase 30A: 75 kA/Mode, 150 kA/Phase
Connection Type	Series, Input/Output; L5 or L6-20 (Plug/Receptacle - ≤ 20A) or L5 or L6-30 (Plug/Receptacle - 30A) - locking or Non-locking version
Clamping Voltage	340 VAC
Operating Frequency Range	47 - 63 Hz
EMI Attenuation	Up to 60 dB typical
Protection Modes	All Connected Modes: L-N, L-G, N-G
Technology	Hybrid technology featuring thermally protected MOVs, Inductors and Capacitors
Standards: Designed and tested to:	UL 1449 4th Edition Recognized SPD, Type 2 Component Assembly, CSA 22.2, UL 1283 Rec. Filter
Status Indication	Green LED
Dimensions (in/mm)	1.875"(H) x 3.25" (W) x 5.75" (L) (47.6 x 82.6 x 146.1 mm)
Weight (lb/kg)	12 oz (.34 kg)
Operating Temperature	-40°C to +85°C
Operating Humidity	0% to 95% non-condensing
Warranty	5 Years

Wiring Connections
